Hi Rob

Thank you, I have updated your company information so the NL eori number will be on your invoice which helps speed up the customs formalities.

In regards to the pricing, I have given you a trade price, whereas the online price in your link I suspect is retail. I can not say for sure why the GOEL 370 is so expensive, I know they are purchasing a re-labeled sensor and I am not privy to what they are paying.

However, I can guarantee that our sensor is a suitable alternative.

Thank you and best regards

Ryan

Hi Ryan,

Thank for your reply. Yes we do have company Eori number. See below,

NL EORI: NL812907383
GB EORI: GB076550792000

Can you tell me why there is such a price difference in this sensor? Are the specs the same? Just asking because I have no experience yet with this kind of equipment.

I am waiting for a reply from our customer. As soon As I have this I will order some sensors.

Regards,

Rob

Hi Rob

The R-17VAN would be a suitable replacement for the sensor in your link.

R-17VAN = GBP £38 EXW

I have set you up on our system, so just let us know what you need when you are ready to order and I will provide you with a proforma invoice.

The proforma invoice will list our bank details but if you would prefer to pay by card I will email a link to a secure payment system.

As soon as payment is received, we will arrange dispatch.

Do you have a company eori number? It is often similar to the VAT number.

Best regards

Ryan
