

Tennant IP - Intellectual Property Services

- Your Company Name
- Your Trade Marks/Brand Names
- Your Ideas
- Your Inventions

THEY ARE ALL YOUR PROPERTY - YOU SHOULD PROTECT THEM!

Tennant IP is a small, friendly intellectual property services company based in Newport, South Wales, the home of the United Kingdom Intellectual Property Office.

We believe that, in today's highly competitive world, it is essential to protect Intellectual Property rights through registration – not just in the United Kingdom but in other territories where the particular right needs to be protected. We feel this is particularly important in an uncertain economic climate where trading conditions are difficult. Trade Marks, Patents and Design registration should be considered. Once Intellectual Property rights are registered, it is crucial to make arrangements to monitor them for possible infringers so that prompt and appropriate action can be taken to protect those registered rights. Registration makes the process of defending your rights much easier.

Tennant IP provide a complete Intellectual Property Service from the initial clearance search to registration and post registration procedures such as transfer of ownership, renewal and monitoring for potential infringers. The services provided cover the United Kingdom, European Union and all other countries worldwide.
