Hi, please can we send Joanne a proforma invoice for the following:

2x 0110058

4x 0110040

4x 0110570

Thank you, Ryan

Dear Ryan,

Many thanks for the information.

Please can you make an PI for the following:

2x Viamet 0110058 (€25.20 each)

4x OOM110 0110040 (€56.00 each)

4x OOM101 0110570 (€30.00 each)

Looking forward to hear from you.

Best regards,

Joanne van de Geer

Hi Joanne

Thank you for your email.

Our labelled version of the OOM110 is the R-30V (0110040) = EUR €56 each EXW

This sensor is the OOM110 manufactured by Honeywell/Envitec, but with a Viamed label.

OOM101 (0110570) = EUR €30 each EXW

All the sensors you have listed are available from stock, so we can dispatch them within a couple of days of receipt of payment against a proforma invoice.

The carriage costs by UPS I expect to be approximately €12-15

Insurance = €11.50 (not essential, but without it Viamed can not accept any liability for the goods whilst in transit)

If you are happy with the pricing, I can send you a more official quotation/proforma with exact carriage charges.

I look forward to hearing from you.

Best regards

Ryan

Hi Ryan,

Thank you for the information.

I have another question, it's about the oxygen sensor OOM110 and OOM101 from Envitec.

Do you also have these? What would be the price of both?

If i want to order 3x pn. 0110058 + 5x OOM-110 + 5x OOM101 what would be the price including transportation costs?

Also do you have an ETA?

Looking forward to hear from you.

Best regards,

Joanne van de Geer

Hi Joanne

Please excuse the late response and please find the distributor pricing below:

MOX4 - pn. 0110504 = EUR €75.25 each EXW

City Tech have added an incentive for orders of 10+ sensors, which we can pass on to you:

10+ = EUR €57.75 each EXW

We can also offer an alternative sensor that is manufactured by Envitec, which is part of the Honeywell group that also owns City Tech:

Viamed T-7V (manufactured by Envitec/Honeywell) - pn. 0110058 = EUR €25.20 each EXW

I look forward to your feedback and please let me know if you have any questions or concerns.

Kind regards

Ryan

Dear Ryan,

Thanks for the quick reply.

If we want to order it would be 4 pieces. But for now to know the price is enough.

It's good to know that now i know where to order 😊

Looking forward to hear the price.

Best regards,

Joanne van de Geer

Dear Ms. Joanne van de Geer

Thank you very much for your email, please accept my reply on behalf of my colleague Steve Nixon.

We would be very happy to supply you with either the MOX4 or an equivalent sensor.

I am just waiting for confirmation of the pricing, as there have been some recent changes, but I will come back to you on Monday.

In the meantime, please can you let me know what sort of quantity you are looking for, please note that we do not impose any minimum order quantities?

I look forward to hearing from you and I welcome any questions you may have.

Kind regards

Ryan

Dear Mr. Dixon, Dear Steve,

Hope you are doing well?

I received your mail from Jesse van Kollenburg (QRS Helathcare in The Netherlands).

He send me to you about the question for ordering: City MediceL MOX4 Oxygen Sensor.

I was wondering if it's possible to order by you, and what would be the price and delivery time?

Looking forward to hear from you, thanks in advance.

Best regards,

Joanne van de Geer
