CAUTION – This email has been received from outside the NICS network. If you have any concerns, please report for investigation.

Dear William,

Thank you for your email. Unfortunately, we are currently unable to supply the Analytical Industries Palm O2 Analysers. At the moment Analytical industries do not have current European CE and ISO certification for their medical products and as a result we cannot import any further stock into the UK, Switzerland or the EU. With the changeover from the EU MDD to MDR there are delays with many of the notified bodies processing certifications. As soon as the covering certificates have been released, we will be pleased to resume supply of products from Analytical Industries.

Alternatively, we do supply the Maxtec MAX02+A, which is identical in specification but under Maxtec branding, and CE marked (please find leaflets attached):

Part number: 0111260

Price: £372.00 (excluding VAT and delivery)

Availability: In Stock - dispatch within 1-3 working days.

If you would like to go ahead with a quote for this alternative product, please let me know.

Kind regards

Sophie Lines

Hi

Would it be possible please to give me a quotation (excluding VAT) for 2 X ALL Palm O2 Analysers, I assume these include a sampling tube & O2 sensor, could you include any delivery charge that would apply to Northern Ireland.

As we are a Government Department, we would issue an official purchase order with payment following delivery of the items, would that be acceptable with you. Look forward to hearing from you.

Regards
