Good morning Jelena,

I have asked our commercial director for an approximate lead time. As soon as I hear from him, I will let you know.

Thank you for your patience.

Kind regards

Kate Griffiths

Hi Jelena,

Thank you for your reply.

I have checked with Ryan and he said the MOX2 is the original. The R-17MED and R-17Vi will work **but may be hard to fit and remove.**

I hope this helps. Please let me know if you need me to make any changes.

Kind regards

Kate Griffiths

Good afternoon Jelena,

Thank you for your order.

We do not have any stock of part number 0110502 - MOX2 MediceL. I will find out a lead time for you.

Please see snip below detailing current prices:

<image004.png>

Carriage will be added at time of invoice as usual.

Please let me know if I can be of any further assistance.

Many thanks.

Kind regards

Kate Griffiths

Hi Jelena

The connector on the original sensor is the same as the R-17MED, but the sensor in your picture has a hexagonal top which makes it easier to grip when fitting and removing from the sensor housing. The original sensor is a MOX2 and I am pleased to inform you that we can now supply the MOX sensors:

MOX2 - pn. 0110502 = USD \$62.50 each EXW

<image002.jpg>

Do you want to add any of the Maquet or MOX2 sensors to your order?

I will await your reply.

Kind regards

Ryan

Hi Jelena

We normally supply the R-17MED for use with the Wato 65, the R-17Vi has a similar output but it has a slower response time and it has a narrower diameter.

R-17MED - 0110017 = USD \$ 47.90 (25+ = \$ 43.10)
R-17Vi - 0110019 = USD \$32.50

The above mentioned sensors are available from stock.

Best regards

Ryan
