BCMS ISO 22301:2012

Viamed runs a very tight ISO 9001 and ISO 13483 Management system.
Business continuity day to day is handled via these 2 systems and or Intrastats.
The ISO 22301:2012 has been reviewed, it has been determined not to be assessed by an external body as most sections of the Standard are DIRECTLY covered by ISO 13485/ISO 9001 of which Viamed is continuously review by British Standards 0086.

Viamed also has a basic Disaster plan found in the document index which addresses sections not covered by ISO 13485.
