I have briefly discussed with Cathy. Tomorrow, please ship 200 x 801006 to rEvo as an advance part shipment of CST147669 / 4536011898.

Add extra UPS Standard shipping charge to cover at £18..00

Steve

OK Pieter

To get them shipped quickly we will process it as an advance part shipment of the 'May' order (but sensors dated April). Then next week you can decide whether to place an extra order or not.

So, as it standards 600 sensors ordered for May ref. CST147669 / 4536011898:

**200 shipping tomorrow (Friday 12th April) with 'April' date code - shipped UPS Standard**  
**400 will be shipped early May with 'May' date code**

We will replenish the emergency stock with 200 sensors (May date code).

Other scheduled orders are:

600 x 8010006 4536012004 - for delivery June

500 x 8010006 4536012006 - for delivery July

600 x 8010006 4536012006 - for delivery August

Regards

Steve

Thank Steve,

That is great, standard shipping please

Will check on extra order or advance of may badge early next week

Is that ok for you?

Have a good evening

Hi Pieter

Of course, not a problem, we can ship tomorrow morning.

Do you want this processing as a new order or as part shipment of your next order (May)?

Also, which shipping service do you require, the usual **UPS Standard** or **UPS Express Saver** ?

For example:

UPS Standard - should arrive Tuesday, approximate cost £18.00

UPS Express Saver - should arrive Monday, approximate cost. £48.00

Regards

Steve

hi Steve,

received the sensors, thanks for the fast shipping

would it be possible to release the emergency badge of 200 pc in the next days?

we have a unexpected increase in demand

let me know please so we can plan accordingly

Hi Pieter

We can ship on Monday if you wish.

All the best for the dive show in Dublin.

Steve

Hi Steve,

On my way to the Irish dive show in Dublin for the weekend.

Wanted to check in on the shipment date of the april badge?

Thanks for a quick update

Hi Pieter

It was good to see you yesterday and I hope that you had a good journey back home.

Regarding this month's sensor shipment, we will try and ship this Wednesday/Thursday if that works for you.

This then leaves:

500 sensors due April

600 sensors due May

Regards
