

Good morning Steve, Xhale have ordered 120 x 0110081. I have looked into stock and can see the supplier "will advise" regarding the shipping date. Is there any lead time you would like me to give Xhale please? Thank you

Steve, 09:11

I've seen the order, you must have a new Intratstats function?? I am hoping that Teledyne will ship 200 in the next week. Why don't you say we will get back to him next week with a proforma with either single or part shipments.
