Please find below links to the Vandagraph Trade and Retail Price List for your reference.

We have tried to maintain our current pricing wherever possible, but I regret to inform you that there has been a number of increases in the cost of the high output sensors, which we are unable to absorb.

I am pleased to inform you that the price changes have not impacted our analysers; the VN202 and TEK-OX.

Retail price lists are valid as of immediate effect, whereas the new trade prices will not be valid until 1st March 2024.

Please do not hesitate to contact us if you have any questions or concerns.
