Hi Stephen

Please accept my apologies for the delay in getting back to you. Yes, we can supply accessories to you in the UK. In principle we could ship to India.
Can you please let us know your requirements and your address details..?

Kind regards

Steve

Hello Stephen,

first of all, I have to apologize again for keep you waiting.

In copy is Steve Nixon from our UK distributor Viamed. They can sell you the required parts.

Please feel free to get in contact with Steve directly. He is informed about the situation.

Best regards

Gunnar

Betreff: Re: TOF3D

Dear Gunnar,

Hope you are well.

Sorry to say, I have been trying all these days to procure the accessories - None of your contacts in India have been helpful.

I am not sure how researchers/clinicians can buy accessories when needed in India.

I think you need a good partner in India.

I think the best way would be to ship the accessories to my UK address and then bring it to India while travelling to India - this is cumbersome.

Kindly advice.

Thank you,

SPS

Betreff: Re: TOF3D

Shveta said that we need to buy through Baxter.

It would be helpful if you can connect me with someone in India.

Local distributor in India will be much easier than me buying in Europe.

Kind regards,

SPS

You can try to buy the accessories from our local distributor. I think you have already been in contact with Shveta.

Otherwise we can sell directly. However we would need a European address to send the equipment.

Regards

Gunnar

Dear Gunnar,

We need a spare stimulation electrodes, acceleration sensor and hand adaptor - the whole set image attached.

We want that to be delivered to PGIMER hospital, Chandigarh, India.

Kindly let me know the cost and logistics.

Thank you,
SPS

Dear Gunnar,

Hope you are doing fine.

I am planning to meet HOD of Medicine, PGIMER, Chandigarh, India, who is an expert in management of neuromuscular paralysis following snakebites.

We want to know how we can use TOF3D during the management of such cases especially during recovery phase.

Will it be possible to provide a tutorial through your network in India while I am in PGIMER on 26 and 27 June?

This will be a great avenue for your product.

Kindly let me know.

Dear Gunnar,

We have purchased two instruments from you through Mr Hareesh, Harrisson Medical, your Indian distributor. The invoice is made to Ophirex, Inc, USA. Both has to be shipped to my UK address: 131, Elvington, Kings Lynn, Norfolk, UK PE304TB.

Please see the attached invoice from Harrisson Medical.

After familiarizing with your instrument, we may order a number of devices for use in India.

Could you kindly let me know the status of the shipment as a matter of urgency.

Please phone or WhatsApp me on 0044 7825 180898.

Kind regards,

Dear Mr. Samuel,

Thank you for the interest in our monitor.

Our local distributor registered the unit in India, so yes it will be accepted.

Would you buy the units in India or Great Britain. MIPM works with distributors over the globe. We only sell directly in Germany.

Pricing is the decision of the respective distributor.

For stimulation you may use regular electrodes as small as possible. E.e. pediatric ECG pads.

You can use the monitor on adults and kids.

We do not measure or show a value for the fade but the fade is incorporated in the calculation for the TOF ratio.

The monitor can be connected to a PC. We offer a software to collect and handle the data. You will need the USB link cable for the connection.

You can define any individual TOF interval between 1 and 60 minutes and the monitor will store up to 45000 measurements. If the unit is connected to the PC all the time the data will be transferred to the PC directly.

Regarding the demo, yes that's possible. Our distributors have demo units. If you let me know where the demo should take place I'm happy to connect you to our distributor.

Let me know if you have any other questions.

Regards

Gunnar Bida
