Subject: VN202 Oxygen meters for calibration from OrganOx - April 2024

Hi Ryan,

As you might remember, we agreed to get our oxygen meters calibrated from you in future, so I do have 3X VN202 need calibration/ attention at the moment. Their serial numbers are;

1. 01344
2. 00822
3. 00821

Can I send them you your workshop for initial inspections/ quotation? I would like them to be fitted with a new oxygen sensor before calibrating, and also be tested for a full range (up to 100% O2) during the testing process.

Many Thanks,

Ruwan Gamage
