Dear Ryan

Thanks for your quick reply.

I wanted to know whether any expiry date is mentioned on this max250A oxygen sensor ?

Because customer won't accept the oxygen sensor if its near date of expiry.

Hi Syed

Before we send you a proforma invoice, please note that our current stock of MAX-250A were manufactured May/2023.

Please note that it takes 6 weeks or more to get them from the USA and they can be up to a year old when we receive them from the manufacturer. So it is important to focus on the warranty period, not the manufacture date.

We have been supplying the MAX-250A for over 20 years and so far we have not had a single reported problem.

Please let me know how you would like to proceed.

Best regards

Ryan
