Hi Jessica

We will ship today. together with spares. It has a UK plug but I assume that someone can easily replace it at Envitec.

What € value customs do you want us to use, is say €50.00 / €100 OK?

Steve

Hi Steve,

We use the HM 3000 CDM device here in our production. We would like to have this device please. Our pre-production engineer also noted that a maintenance kit would be helpful if available.

Thanks!

Jessica

Hallo Jessica,

das Gerät HM 3000 CDM benutzen wir hier in der Verpackung zum Verschließen der Tüten für Vandagraph.

Dieses Gerät hätten wir gern. Andreas bemerkte noch, das gleichzeitig ein Wartungssatz mitgeliefert werden sollte.

Vielen Dank für deine Mühe, Jessica!

HM 3000 CDM

Max sealing length: 310mm

Gruß

Ines

Hi Jessica

I suggest the HM 300 CDM (with magnetic hold and auto release).

Also available:

HM 2300 CD (shorter length)

HM 3000 - this should be the same as you already have.

HM 3000 CD - better with dual temperature control

HM 3000 CDM - (with magnetic hold and auto release).

HM 2500 (E/Standard)

Max sealing length: 240mm

HM 2500 S

Max sealing length: 230mm

HM 2300 (E/Standard)

Max sealing length: 230mm

HM 2300 CD

Max sealing length: 230mm

HM 3000 (E/Standard)

Max sealing length: 310mm

HM 3000 CD

Max sealing length: 310mm

HM 3000 CD-SS

Max sealing length: 310mm

HM 3000 CDM

Max sealing length: 310mm

Hi

From memory you should have one of each and spare parts.

We use the magnetic release ones, as they are quicker and more consistent, I'll order another one for you.

Hi Steve,

We have one for the standard sensors and one for JFD sensors.

I talked to the production and they told me that it sounds interesting with the magnetic time release. Is that complicated or easy to use? In this case they would prefer that one.

Hi Jessica

Of course. Do you already have one or two there?

Do the production staff prefer the one with manual release or magnetic time release?

Steve

Hi Steve,

As we can see that most of your orders required to ship out by end of the month I would like to ask you to send us a second bag sealing machine to be more efficient.

Is that possible?

Thanks for checking and letting me know.

Jessica
