Hi Andras

I hope this email finds you well.

Just a quick update in regards to the KE series sensors that you have been using in the past. Maxell, the manufacturer, are ceasing production of the standard KE series as of September 2024. A lead free version is available, however these sensors are also not certified for medical use.

Please do not hesitate to contact me if you have any questions or if you would like to discuss your requirements and explore any alternative sensors.

Best regards
Ryan
