Hi

It's Oona from Portland Gas Shack. We used to be Skindeep Diving! Don't know if you remember us...

1. Could I please order a replacement 02 cell for our Analox 02 Ell oxygen sensor

R-33DE Oxygen Sensor (0110224) 9100-9220-9B

2. You said on the phone, a few months ago, that you might be able to fix/have a look at, 2 of our anaolx analyser's that are broken. If we posted them out to you. Is this still possible? And what address should we send them too?

I am back at work on Wednesday.

Kind regards

Oona
