Dear Steve san

Hurry up and send us 25 pieces that passed.
What is the shipping date?

For the 6 items that have been presented with a value, we will consider accepting them.

Was the cause of this delivery delay due to the lack of sensors in the standard? What is the situation?

Regards
Tateishi

Dear Tateishi

At the moment we only have 25 sensors that have passed the QA testing. If you need 30, are any of the following suitable for you; the values are pressure compensated to 1013mb, dry ambient air.

10.45mV

13.54 mV**13.64 mV****13.64 mV****13.74 mV****13.74 mV**

Other sensors are above these mV values.

Regards

Steve
