Good afternoon Supattra,

Thank you for your enquiry.

Before I finish your quotation, **please could I check whether you require** part number 0110420 - oxygen sensor MAX-14 (Fluke version) or part number 0110414 - oxygen sensor MAX-14.

Regarding the MAX-550 CUI - we are not able to supply this sensor.

Regarding the MAX-250+ if the sensor is for the VT900a Gas Flow Analyzer Ventilator Tester then you require part number 0110427. The MAX-250+ also has the reference numbers 4917220 and Maxtec R125P02-011. If your device is not the VT900a, please let me know what the oxygen sensor will be used in, and I can then advise you further.

I look forward to hearing from you.

Kind regards

Kate Griffiths
