**Subject:** Re: PI for Oxygen sensors

Hello Ziad

Good morning

Thank you for your email.

The lowest costing hand held monitor is the My Sign O Monitor **(0111276)** which has alarms, the current price for that is **\$299.00** each.

If your wanting a hand held monitor without alarms then you should go for the MaxO2+A **(0111260)** or the MaxO2+AE **(0111261)** but I do need to advise they more expensive than the above My sign O monitor, the price for the Max02+A is **\$328.00** each and **\$337.50** each for the Max02+AE.

We can also offer you the Handi+ Oxygen Analyser **(0111250)**, this is our lowest costing analyser that we offer which costs **\$170.00**, but it is disposable at the end of its life, which is approximately 2-3 years.

If your wanting further information on all of the above, please visit our website and search the highlighted stock references numbers.

Kind regards

Aqib Majeed

Hello

Good morning

Sorry for the delay in the reply

Thank you for your order.

Please see attached below for your quotation detailing the price and products you require including insurance and carriage costs.

Can you have a look and see if all details on the quote including addresses are correct or if any amendments are required.

If you are happy and wish to proceed, please make payment for the total amount stated on the quotation,

Please let me know if you require any further assistance.

Kind regards
