FYI and Robert and Cathy are also aware.

Produced 8010006 stock should soon be up to 500 off.

Please ship 300 against CST148817, also 200 as a part 'forward' order from CST148818. This will leave us without emergency stock (qty 200) until the August stock is produced.

good morning Steve,

if we could have the balance of 300 pc + 200 pc advance shipped in the next days

thus balance of 400pc for august we should be fine

Hi Pieter

We should have the emergency stock back up to 200 in a few days time.

If we ship 200 in advance of the August shipment, will that leave you short for August?

Good evening Steve,

Thanks for the quick reply

Stepping in as we have a increased demand from Italy (MARES)

If I am correct we should have the 200 pc of the emergency stock back available?

Could that ship as a advance on the august order together with the july badge?

Thanks for checking the possibilities

Hi Bram

The July batch is 300 sensors, so far we have processed 175 sensors through QA.

Do you want a part shipment or do you want to wait a couple of days for us to ship the whole batch?

Regards

Steve

Hi Steve,

Thanks for reaching out.

This looks correct to me.

Any idea when the 300 pc can ship?

Also, I still have this invoice open. Just to make sure so that I did not mis understand,

Is there a correction of the price on these 200 ?

Of is the attached invoice the final one?

Hi Pieter

I am just checking that the following is still correct, do you just need 300 sensors in July?

Reserve stock = 200 sensors

July 300 sensors (balance of part shipment from June)

August 600 sensors

September 500 sensors

October 600 sensors

Steve

Of course, the emergency stock will be back to 200 early July.

I was just trying to find out if we needed to prepare another 400 in total. 200 to bring July back to 500 and 200 for emergency stock.

thank you Steve

yes, the below schedule looks correct

just to be sure, if we can replenish the emergency stock again, it is very helpful to be able to count on that, in cases like today

Hi Pieter

Sorry about that, we will backtrack and process as a 200 sensor call off from the July shipment. We will get back to you with the updated paperwork.

So, as a result, you just require a balance of 300 sensors for July.

July	300 sensors
August	600 sensors
September	500 sensors
October	600 sensors

thank you Aqib,

much appreciate it

just checking in, as this is a advance of a 500pc order, see attached, should pricing not be at 27.15£ ?

thanks
