

Established in 1977, Viamed is a privately owned company that designs, manufactures and distributes medical products. Primarily working in general and critical care applications throughout Hospitals, as well as Emergency Services. Other areas of activity include: General Practitioners, Dental Surgeries and Veterinary Surgeries.

Sales in the UK are conducted through our own dedicated sales team and internationally through a network of independent distributors.

Viamed is committed to providing quality and competitive products, whilst offering fast and efficient service. As part of this commitment, products are CE marked and are supplied in accordance with stringent general and medical quality standards: ISO 9001, ISO 13485.
