

A Metered Dose Inhaler (MDI) Adapter Directions

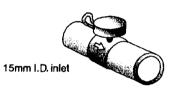

RTC 15-D

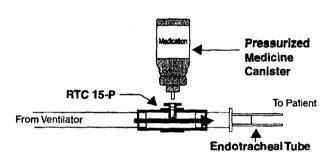

15mm I.D. outlet

RTC 15-P

15mm I.D. outlet

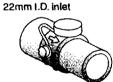

RTC 22-A

RTC 22-D

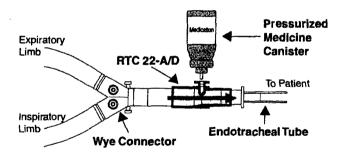

15mm I.D./22mm O.D. outlet

15mm I.D./22mm O.D. outlet

Directions for Use:

- Connect the RTC Series MDI Adapter in-line.
- 2. Ensure that the air flow arrows are pointing in direction of flow.
- Remove cap to administer medication from the MDI canister as prescribed.
- 4. Replace cap.

"A" series are reusable

"D" series are disposable, intended for single-patient use and are not intended for reprocessing.

See Panel "B" on other side for Sterilization and High-Level Disinfection Recommendations.

Caution: Federal law restricts this device to sale by or on the order of a physician.

RTC 23-A

15mm I.D./22mm O.D. inlet

RTC 23-D

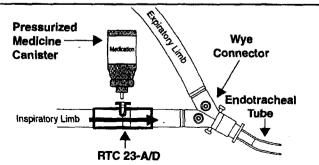

15mm I.D./22mm O.D. inlet

15mm I.D./22mm O.D. outlet

15mm I.D./22mm O.D. outlet

Exact process should follow standard hospital or institution validated procedures.

Device should be cleaned with a mild detergent before processing.

Pasteurization:

No less than 70°C/158°F for no less than 30 minutes.

Steam Autoclave:

Do not exceed 135°C/275°F.

Do not steam autoclave disposable parts!

Cold Chemicals:

Do not use alcohol or chemicals containing dimethyl ammonia chloride. Recommended chemicals: 2-4% activated glutaraldehyde solutions. Thoroughly rinse with sterile water. Exposure time should be based on the manufacturer's indication for use as a highlevel disinfectant or sterilant.

Always visually examine device after each high-level disinfection/sterilization process. Do not use this product if it shows signs of cracks, poor fit, severe discoloration or fails to perform as indicated.

Reusable Adapters may be reprocessed up to 30 times at the parameters provided

Disposable Adapters are designed for single-patient use and can be processed once at the paramenters provided above, with the exception of the steam autoclave.

> DO NOT STEAM AUTOCLAVE **DISPOSABLE PARTS!**
