Dear Sophie,

Please find our official PO for UFO 130-2 Oxygen Sensor for Metabolism. We change the quantity from 13 pcs to 14 pcs. Could you please provide us your WhatsApp number, HS Code product, and detail product before we pay it?
Thank you

Best Regards,

Subject: Re: Quotation UFO 130-2 Oxygen Sensor

Good morning,

Thank you for your email. Apologies for the delay in my response, as I was on annual leave yesterday.

We do have stock available at the moment - with lead time being approximately 1 week - however, to secure these sensors we recommend you don't delay payment - if payment is delayed, we may have other customers purchasing the sensors we have in stock before you.

Kind regards

Sophie Lines

Subject: Re: Quotation UFO 130-2 Oxygen Sensor

Good afternoon,

Please find attached your Proforma Invoice for 13x UFO 130-2 sensor as requested. Please can you check this document and let me know if I have all your address and company details correct?

If you are happy to proceed with this order, our bank details can be found on the bottom of the invoice. We do have stock available currently, but this is a very popular sensor and we cannot allocate stock to your order until payment has been received. If all stock is sold before your order is official, I would estimate the lead time to be approximately 6-8 weeks.

If you require any further information please do not hesitate to contact me.

Kind regards

Sophie Lines

Subject: Re: Quotation UFO 130-2 Oxygen Sensor

Hi Natalia,

There is no expiry date on the UFO 130-2.

As a rule we suggest putting the sensors into service within 6 months of purchase, but this is to make the most of the warranty period, which is 12 months from the date of shipping.

The useful life of a sensor depends upon concentration of oxygen. If it is left inside the sealed gas barrier bag, its life expectancy should only deteriorate by 1/20th of its in air life per year. The special gas barrier bag allows only a negligible amount of oxygen or moisture to pass through. **It is not recommended that sensors are stored longer than absolutely necessary for warranty purposes (12 months from date of invoice).** Sensors should retain 90% of their useful life after 24 months in the gas barrier bag at 25 degrees Celsius, 50% relative humidity.

Kind regards

Kate Griffiths

Subject: Re: Quotation UFO 130-2 Oxygen Sensor

Good afternoon Natalia,

Thank you for your email.

The price breaks for part number 0110081 - oxygen sensor UFO 130-2 are as follows:

1 - 24 = \$ 166.50 each EXW	25 or more = \$ 149.80 each EXW
-----------------------------	---------------------------------

These are currently in stock, though stock levels change very quickly with this sensor.

If you would like a proforma invoice detailing carriage charge (we ship via UPS, but we can of course use EXW for you to arrange your own courier), bank charges and insurance, I would need your invoice and delivery addresses in order to set up a new account for you.

We accept payment by bank transfer or PayPal (which incurs a fee of 6% of the order total).

Many thanks.

Kind regards

Kate Griffiths
