OK Pieter

So, on Monday ship:

Remaining 400 from **4536012006**200 in advance from **4536012134**

September

Remaining 300 from **4536012134**200 in advance from **4536012135**

October

Remaining 400 from **4536012135**

Do you want the replenished emergency stock to be available in September (with September date) or October (with October date)?

Going forward, would it make it easier for your stock management if I extended the best price down from 500+ to 200+ and reissued the price list?

Part number	Model	Connector	Quantity per delivery	Price per sensor
8010006	rEvo CR22D	3 pin Molex	50 – 99	£32.60
			100 – 499	£29.35
			500+	£27.15

Regards

Steve

Hi Pieter

We can do so, but that would only leave 300 sensors for September.

thank you Steve,

would it be possible please to ship the 400 + 200 from the emergency badge as a advance on the September order?

thx

Pieter

Hi Pieter

We aim to ship the August batch of sensors (qty 400) on Monday.

FYI we also have the emergency reserve stock back up to 200 sensors.

This then leaves the following on order:

September 500 sensors

October 600 sensors

Regards
