Fwd: Quote required for urgent order

Steve Hardaker <steve.hardaker@viamed.co.uk>

To: office@vmsecure.me.uk

Morning,

Leicester Royal have changed their minds on quantities, see below.

I thought it was suspect that Glenfield in the same Trust also asked for a quote for a big number last week, so I checked they weren't duplicating requirements and it turns out they are.

Please can we edit the quote, thanks.

Steve

Hi Tarun,

My colleagues in the sales office will prepare a formal quote for you but they are very busy today; I will send it as soon as it clears checking, which will hopefully be this afternoon but if not, then first thing tomorrow.

For reference the total cost will be:

55x 0110429 - Oxygen sensor MAX-250E @ £62.10+VAT
Carriage: FOC
TOTAL: £3,415.50+VAT

Quick question: are these completely separate to the requirements of Glenfield? I only ask because we had a quote request for 25 of these sensors from David Glet at Glenfield last week and I'm just checking that requirements aren't being duplicated across the Trust.

Hi Steve,

We seem to have lost track of nearly all of our units and their PM schedules.

So we are looking to replace the sensors on all of our units at the moment. Please quote for 55 and i will look to stagger the PM`s in future.

Kind Regards,
Tarun Vaja

Hi Tarun,

We have plenty of these in stock, are you wanting a quote for 55 units all in one delivery or is this your annual requirement?

We have a maximum price break at 11+ units, so if these are for staggered PPMs, you could gain the same pricing by ordering 11+ at a time 5 times per year.

p/n 0110429 - Oxygen sensor MAX-250E @ £62.10+VAT each (for minimum of 11+ units per delivery)

Carriage: FOC

Please let me know and I can quote accordingly, thanks.
