Dear Ryan,

hope you are well.

That sounds good. We still have free test capacities in week 40. When the device arrives next week, we'll be able to test everything.

Mit freundlichen Grüßen / Kind regards

Andreas Schenk

Dear Andreas

I hope this email finds you well.

We believe that we have addressed the design of the VN202, and provisional tests have shown promising results. The new device seems to perform as expected so far.

Could we arrange to send you a sample device for further testing? Please let me know when it would be convenient for you to receive the device, and I will make the necessary arrangements.

Kind regards

Ryan
