Hi Tony,

Thank you for your email. The MK-C-080 sensors are a recent addition to our EEG Sensor range, and unfortunately, we are unable to provide a full box for trial.

However, I can speak with our Commercial Director to explore the possibility of sending a single sensor for evaluation. Would that be acceptable to you?

Additionally, could you please clarify the department in which you are working, as well as the expected number of sensors you anticipate using per month?

I look forward to your response.
