

Morning Steve, we've had an enquiry from Nuffield Woking for 4310014. They are asking for samples, are we providing samples of these or are they too expensive?

Steve, 10:45

That's strange, the pack of 200 is for selling to OEMs who assemble vent circuits. These are included in with our sensors. Are you sure they need extra ones? Are they buying our sensors? How did they get the part number? If necessary I can generate a single qty part number. 4310014, 4310015 - one of each is included with each flow sensors 4310009

10:46

Sorry.... wrong part number

4610014 😊

Steve, 10:49

Yes, have they specifically asked for MK-C-080, we also have MK-03.

10:50

Specifically MK-C-080

They originally asked for a full box but obviously told him we wouldn't do that.

Steve, 10:50

I'll create single qty part number. Box of 25 will need to be transferred to single stock.

10:50

OK thanks I'll let them know.

Steve, 10:54

Stock number added.
