Hi Kathy

We have your palletised order ready for collection:

120 x 80 x 117(H) cm, 70kg

After our QA check it was found that one box only contained 24 lines, not the specified 25. That box has been rejected, so we have 99x boxes, not the 100 we were aiming for.

The collection vehicle will require a tail lift.

Please let me know if you have any questions.

Best regards

Ryan

Hi Ryan,

Just discussing the options with Fraser and it would be best palletised as it would give us more options for road and provide more security to the boxes loaded.

Can you kindly confirm once palletised and share shipment details.

Thanks Ryan,

Kathy

Then Fraser from A-Sonic will be in contact regarding the collection for delivery to Health Logistics in Germany.
