Sorry for that, i assumed that the previous proof of export would suffice, i can't guarantee that we can provide proof of export for this consignment since it's a long time, kindly just proceed with the quote going forward we'll be providing proof of export for each consignment.

Thank you Kennedy. Before I finish the quotation, I need to let you know that we have not received the proof of export for your order below:

<image.png>

If you are able to send that to me, I can then make your new quotation VAT exempt.

Kind regards

Kate Griffiths

Hello Kate,

What I need is the sensor cell MAX 550E. Yes we have ordered it previously for use with the blenders that we had bought.

Regards,

Kennedy

Subject: Re: MAX 550E

Good morning Kennedy,

Thank you for your email.

Do you require part number 0110454 - Maxtec Oxygen Sensor MAX-550E with specific flow diverter for use with Maxtec MaxBlend range of blenders? You have ordered this previously.

There are two versions of the MAX-550E.

0110454 (R140P02-001) is a Max-550E for use with MaxBlend devices (MaxBlend 2, MaxBlend Lite and Blender Buddy 2).

It is supplied complete with a special flow diverter which is narrower in diameter and has a small bleed hole (0120086).

0110452 (R140P02) is a Max-550E for use with MaxO2 ME oxygen monitors.

It is supplied complete with a standard 15mm I.D. flow diverter (0120094).

Many thanks.

Kind regards

Kate Griffiths
