

Good morning, I have 2 orders from Medical Scandinavia. I was going to combine their new order with their existing proforma (they had agreed that) but then it turned out they had paid that day. So I have changed the first order to CVM153116 (on 8) for 2 x 0110452.

Their new order is for (still on proforma MVM153246) for 25 x 0110017. They would like them to be shipped together (when paid for). They have paid for w/d for first order as 23 x 15 x 12 cm 0.30 kg and I know that the combined 2 orders are as above. Please could you tell me what w/d I should put on the new order so they can be shipped together? Thank you

Cathy, 09:15

dont put any dims down

09:37

So, 20.79 is cost to ship both orders. They have paid 15.88 on 1st order. Difference is 4.91. So 4.91 cost of shipping for new order. Does this sound ok to you?
Thank you 😊

Cathy, 09:39

you can if you want , or you can be nice and just call it quits and not put anything down
