Good morning Hajar,

I hope this message finds you well.

Thank you for confirming to my colleague Kate, that the KE-25F3LF sensors (part number 0110546) meet your requirements. As a reminder, the pricing is as follows:

1 = €80.40 EXW

2 = €76.40 each EXW

3 - 10 = €72.40 each EXW

11 or more = €68.40 each EXW

Items currently are not in stock and would require a lead time of approximately 6-8 weeks, hopefully sooner, from proforma invoice payment. To confirm, this is a on-stock item and **does not have medical standards approval**.

Please let me know if you would like to proceed with an order, require any further information, or need a proforma invoice for payment.

Should this item be no longer of interest, please let me know and we shall remove you from our chase list.

If there's anything else I can assist you with, please don't hesitate to ask.

Thank you, and I look forward to your response.

Kind regards

Catrin Hollings

Thank you for your reply Hajar,

The price breaks for part number 0110546 - KE-25F3LF are as follows:

1 = € 80.40	2 = € 76.40 each EXW	3 - 10 = € 72.40 each EXW	11 or more= € 68.40 each EXW
-------------	----------------------	---------------------------	------------------------------

This is a non-stock item and **does not have medical standards approval.**

Please let me know if you require a proforma invoice detailing carriage charges and insurance.

Kind regards

Kate Griffiths

Good afternoon Hajar,

Thank you for your email.

Unfortunately, the Figaro KE-25 range of sensors has now been replaced with lead-free versions.

If I understand your request correctly, you are looking for the KE-25F3 model. The manufacturer has replaced this with two options: one suitable for an O2 range of 0-30% and another for 0-100%. We can also offer an alternative sensor from another manufacturer that is more similar in design to the original KE-25F3:

- 0110546 Oxygen sensor KE-25F3LF (threaded input, lead-free, unterminated, 0-30% range)
- 0110547 Oxygen sensor KE-25F3LFM (threaded input, lead-free, unterminated, 0-100% range)
- 0110432 Oxygen sensor MAX-250(B) by Maxtec

Please find attached further information on both the Figaro and Maxtec sensors. Do not hesitate to contact me if you have any further questions.

Kind regards

Kate Griffiths
