Please process the attached VAT purchase order from rEvo for 200 x 8010006 @ £27.15 each

To be shipped together with the balance (400 sensors) of CST151951 9th December. Both orders to be set as OK to ship early.

Steve

Hi Steve

See attached, PO for the shipped emergency stock.

Can you organize production for new emergency stock, so we always have a backup of 200 sensors in case of...

Other question, we have a UK based customer, Debbie Davis. She has an oxy sensors showing 0mV. Sensor is from February '24.

With Brexit, return of a defective sensor to Belgium is not that easy. Can she ship that sensor directly to you?

Have a good weekend

Bram

Hi Bram

The tracking number is: **1ZA8Y7296852414609**

Yes, we can ship a full batch of 600 sensors. Can you please supply an order number to cover the extra 200 sensors please, you can use the price of £ 27.15.

Hi Steve

Can you please provide me a tracking number for the 200 sensors.

Question, are you planning to ship the remaining 400 sensors on 10.12.2024? Or a full batch of 600 pieces.

We have an increased demand for sensors for December, so if you would be able to ship 600 pieces on 10.12, that would be ideal for us.

Please let me know if that's possible to do.

Kind regards

Bram

Hi Steve

Thanks for your prompt reply.

It would be a good help for us if you can ship the 200 pieces tomorrow.

Thanks for your help.

This message is from an EXTERNAL SENDER – be CAUTIOUS, particularly with links and attachments

Hi Bram

We are currently scheduled as per the order, to deliver 600 sensors on 10.12.2024.

We can try and ship earlier.

If you are critically low, we can part ship 200 (emergency stock) tomorrow.

Regards

Steve

Hi Steve

Hope all is fine with you.

Can you please let me know when next sensor shipment can be ready for us.

We are critically low on stock, so the sooner the better.

Thanks in advance for the update.
