Dear Marie-Pierre

You ordered 100 oxygen sensors for delivery in December and then added another 50.

At the moment we have 100 available for shipment, do you want them shipping now or wait until we have the additional 50?

Regards

Steve

Hi

Should we add 50 as an extra line to the existing order or are you going to supply an extra order?

Hi Marie-Pierre

That is a very tight schedule. Do you want to place an additional order for 50 sensors and we will try and produce during December?

Steve
