Dear Anastasios

Are you sure a letter is required when we would supply the exact same sensor as they are using, the MLF-16?

If so, what would the letter state?

Best regards
Ryan

Dear Anastasios

It is not something we normally offer, as equipment manufacturers can make changes to their equipment and swap and change sensors from time to time, so our cross reference is only a guide.

Please can you ask them the make and model of the sensor they are replacing, as we can offer a compatibility letter against the sensor.

Best regards
Ryan

Dear Anastasios

Is your client asking for this letter?

I am under the impression that Medin also supply the same O2 sensor as we offer.

Best regards
Ryan
