Dear Antti

Thank you for the information.

Yes, they are practically the same as the Honeywell sensors.

Please can you share your company VAT/EORI numbers with us when you have them?

In terms of stock, we nearly always have them available so there is no need for you to overstock, as we can ship very quickly. I would look towards keeping stock based on putting the sensors in to use within 6 months of purchase.

Please let me know if you have any questions or concerns.

Best regards

Ryan

Hello!

We are starting the operation of a new company next week. I'm thinking about how many sensors I dare to order right from the start. Mainly because are they sure to work properly? Are these sensors practically the same as the Honeywell sensors?

Our company information is as follows:

Nuvitor Oy

Antti Nurmela

Kylmäkorventie 19, 37560 Lempäälä Finland +358503738808

We can continue the conversation in the future at that email address.

Dear Antti

Yes, we are in the UK. We would not add any UK VAT to your orders, but you will have to pay your local VAT upon importation.

Hello,

First of all, I want to say that writing English is not my strong point, but hopefully you can get my point. :)

I have worked in the automotive industry with car repair shop equipment for more than 10 years. I am finishing my work at my current employer and i will start my own company at the end of November.

The company has not been established yet.

The sensors are used for my customers' gas measuring devices. If you can give a good price, I believe I can sell sensors to other companies in Finland as well.

Sales volumes are difficult to estimate. A lot depends on the price. I have good connections with a few large car inspection companies, so a good number of sensors could be sold there every year.

Dear Antti Nurmela

Thank you very much for your email.

We would be happy to supply you with the sensors you are looking for. We supply our own labelled version of the sensors, which are available from stock:

OOA101-1: R-17AVG

OOA101: R-22AVG

Please find our brochure attached. Before I send you the pricing, please can I ask if we are supplying to a company and if so, please can you provide me with the details? Are you reselling the sensors or using them in your own equipment?

I look forward to hearing from you.

Kind regards
