Hi Aqib, this is unlikely to go down well, but Syed Ali at Avens would like an R-17V - 0110018 adding to his current order. I'm happy to allow it to go out without payment, you may wish to check with HL, as it would cost him more than the goods value to make the payment, so he would like to pay this with his next order.  
It looks like it has already been packed, but he has not yet arranged collection, so Cathy may not be happy.

Syed wants to add r-17V to his order CVM153628, has it already gone? if not can how can we add it to the order? or shal I add another order for him and add note to ship together?

13:54

Can we for the above or is it a no

Cathy, 13:55

you will need to put a new order on for the sensor and then we can ship with the other order
