To: <ryan.swaine@viamed.co.uk>

Dear Swaine ,

We have checked the data you sent us. We need the OEM 2 Development Kit (0012761): 8110140010 and an additional OEM 2 Module (911010001xx 1EA, Ear Probe SpO2 sensor EP7500: 602132254 1EA. Based on the OEM 2 Module, we would like to develop a portable type system.

The system we are developing is a wearable pulse oximeter that can communicate with Wi-Fi applied to the gait analysis system, and it must have high mobility as it is a device that allows the patient to walk while wearing it, and it must adapt to the low perfusion situation as it is applied to elderly patients, so we selected OEM2.

If you provide us with your prepayment passbook for the purchase of this product, we will transfer the money to you.

Please send the product to the address below.

Dear Min Soo Kang

I hope this email finds you well. I apologise for my late reply.

Please find attached a copy of the countersigned agreement.

Additionally, I have included the Communication Protocol, Integration Guide and Host Validation Checklist for your reference.

- **OEM II:** Offers excellent performance under low perfusion conditions and great motion tolerance.
- **OEM III:** Provides comparable motion tolerance, operates with lower power consumption, and has a smaller footprint.

We are currently using the OEM III in our VM-2160 SMARTsat handheld device.

For your development team, we can provide a development kit that interfaces with a PC to allow evaluation of the SMARTsat technology. Pricing details are as follows:

- **0012761 OEM II Development Kit:** EUR €350 EXW
- **0012762 OEM III Development Kit:** EUR €350 EXW

We can also offer an emulator for your software team to simulate patient signals, conditions, alarms, and more. This can help demonstrate how SMARTsat interfaces with your existing hardware.

I look forward to hearing more about your requirements. Please do not hesitate to reach out if you have any questions.

Best regards
Ryan

Dear Min Soo Kang

Thank you for your email and for taking the time to visit us at Medica. I apologise for the delay in responding; it has been an incredibly busy period since the event.

Before I provide pricing and ordering information, could you kindly complete, sign, and return a scanned copy of the attached non-disclosure agreement? This will enable us to discuss your requirements openly.

I look forward to hearing from you.

Best regards
Ryan

Dear Mr. Nixon,

I hope that you had a very successful MEDICA show this time!

As I mentioned at MEDICA, we need your module, the SMARTsat module.

Therefore, I need OEM 1 and OEM 2 and the SMARTsat development kit.

How can I make a purchase and receive the item from my company in Korea?

Please discuss how. I will actively reflect it in our products.

I appreciate it.
