Dear Ryan,

We want to order and try each package of flow sensors with the attached catalog. Can you send us a proforma invoice for this? I would appreciate it if you can send it after the New Year. Can you also share the CE certificate of these products, if any? If not, you can send the exemption letter. Thank you for your help for now.

My partner whose email you saw in CC will help us with the import. We will do the import through the company she specified.

I wish you a happy new year again😊

Thanks and regards.

Fatih.

Dear Fatih

Unfortunately I do not currently have a comprehensive price list for our O2 sensors, as the range has been expanded recently. Can I please suggest that you give me an idea of the sensors your clients need; if you can give me the makes and models of sensors or of the equipment you require the sensors for I can give you the pricing information?

Please find the pricing for the Versastream lines and Flow sensors attached, but again it might be better to give us an idea of what your clients are currently using before purchasing samples?

Best regards

Ryan
