Hello

Good morning.

Thank you for placing a your order with my colleague Sophie.

Please accept my reply on behalf of her as she is on annual leave.

Please see attached proforma invoice, valid for 30 days.

Can you please have a look and see if all details on the proforma including addresses are correct or if any amendments are required.

If you are happy and wish to proceed, please make payment for the total amount stated on the proforma.

The OxiQuant s Oxygen Analyser is a user calibrated device and therefore should not require a calibration certificate, Unfortunately the manufacturer does not supply these but we can offer you this, but there would have to be a charge of **\$37.75** each.

In regards to the Nitrogen measurement the Oxiquant S can not measure N2, but If you are measuring a gas which only contains N2 and O2, then you can use the Oxiquant S to measure the depletion of O2.

Please let me know if you require any further assistance.

Kind regards
