

Cleaning the Kitchen

The kitchen needs to be cleaned daily using the products, which are kept, under the kitchen sink.

Please make sure that the following are done:

The kitchen work surfaces are wiped down moving objects sat on the work surface not just cleaning around them.

Dirty cutlery is put into the dishwasher and the dishwasher is turned on when full.

The dishwasher needs to be emptied and its contents put away in there correct places.

The sink needs to be wiped out and bleach put down the drain.

The kitchen floor must be swept and mopped using floor cleaner or bleach.
The brush, mop and bucket are stored in the conservatory.

The microwave needs to be wiped out using a damp cloth and Dettol spray

All cupboard doors, fridge and dishwasher door should be wiped down with a damp cloth and Dettol spray.

Wipe down walls where needed usually around the bins using a damp cloth and Dettol spray.

All bins must be emptied and you should put the correct waste in the correct bin (as per VM3COP20.34 Doc ID:17146)
