Fwd: FW: Request for O2 sensor quote for GEAnesthesia machines- carestation 650 & Aespire view

Steve Hardaker <steve.hardaker@viamed.co.uk>

24 January 2025 at 12:23

To: office@vmsecure.me.uk

URGENT - please can someone raise a quote for the following and send to Surya ASAP, they want these out today but I think we are too late to be able to achieve that.

- 4x p/n 0110705 - Oxygen sensor MLF-19

Thanks,
Steve H

Subject: FW: Request for O2 sensor quote for GEAnesthesia machines- carestation 650 & Aespire view

To: Steve Hardaker <steve.hardaker@viamed.co.uk>

Dear Steve,

Could you please send the quote as soon?

Once after the approval from our HOD, we can provide a verbal confirmation for the order.

PO will release nextweek , is that possible to deliver the sensors atleast two on Monday as our two machine is down.

Thanks & Regards

Surya Sudarsanan

Hi Surya,

Thank you for the update. In this situation, they may not be of any use as you don't have existing flow diverters.

It's just unfortunate that this is a bespoke flow diverter, for which GE has invested in proprietary tooling, making it too expensive for third parties to replicate without a significant increase to the cost of the sensor.

I will wait to hear from you when you have had the chance to discuss.

Best regards,

Greetings from Surya Sudarsanan!

Dear Steve,

In my Anesthesia machine's these o2 cells are missing and I need it complete sensor including adaptor & o ring. let me check with my Team leader who is on sick leave , will be back on Monday, & then will let you know regarding this.

Apologies for the delay caused

Thanks & Regards

Hi Surya,

Do you still require a formal quotation? If so, please can you confirm that you accept that these sensors come with no flow diverter and that you are happy to reuse existing ones?

For reference, the price for 4 sensors will be £81.60+VAT per sensor, carriage is FOC.

Hi Surya,

I just need you to confirm that you are happy to re-use existing flow diverters as these sensors will not be supplied with them.

If you can confirm this is writing, we will send a quote for 4, thank you.

You don't often get email from steve.hardaker@viamed.co.uk. [Learn why this is important](#)

This message originated from outside of NHSmail. Please do not click links or open attachments unless you recognise the sender and know the content is safe.

Hi Surya,

The specific sensor that you require, MLF-19GE, uses a bespoke flow diverter, which is exclusive to GE. Whilst we do have the base sensor, the MFL-19, the version that we supply does not come with the flow diverter as we do not have access to that part.

However, we have a number of NHS customers that use the MLF-19 by just re-using the original flowsensor and they have found it to be fully compatible in every other sense. If that would be an option for you, the sensor details are as follows:

p/n 0110705 - Oxygen sensor MLF-19

1-off: £96.00+VAT

2-off: £91.20+VAT

3-10: £86.40+VAT

11+: £81.60+VAT

Carriage is FOC.

Unfortunately, we don't have samples to offer prior to purchase, but a single sensor can be purchased using the details above.

I should point out that these prices are only valid until 1st February as we have a pricing review upcoming and there is an increase due to be applied after that date. However, if you request a quotation before the end of the month, it will remain valid for 30 days.

If you have any queries please feel free to ask.

Greetings from Surya Sudarsanan!

Dear Viamed team,

Kindly provide the quotation of O2 sensor for carestation 650 (Qty-6) & Aespire view (Qty-4).

Below is the pic of Carestation 650.

If you can provide one O2 sensor prior to the order kindly confirm on the reply mail, will receive the PO within 2 weeks (maximum time)

Kind attention: Please put 'Royal free London, North Middlesex University Hospital' in the quotation

Thanks & Regards
