

Hi Cathy, Derriford Hosp have asked for a quote for various DB3 parts. All in stock except 2530003 - Lower case label (3 required). Is this something that we have in but not logged as stock? Thank you

stock ones dont have them on, but I could dismantle a built one up, that does have a label on it, there would need to be plenty of notes on the order to state this, otherwise someone will send them a plain one

I will add notes to quote in case they order. Thank you. Also to let you know when a CVM else it will be blue on active list
