do we know if they are happy to pay th other extra carriages

React to this message

cos theres to 67 to go to them probably the same back and the the new carriage to Netherlands

so how much do they owe us then overall

is there a point of sending the 67 back to them ?

so we will need a new proforma to include carriage from Dubai of 67.25 euros and and carriage 13.83 euros to ship back to Netherlands. that needs sending to them to pay before we can re send the goods back out

this is as well as the order above you have already added.

so send the proforma to them and dont send the order. thn when they pay we can get it sorted.
