Hi Catrin

Thanks for the follow-up email.

I do wish to buy the device. However, I am trying to time it with someone who may be coming to India. That's what is taking time.

Alternately, I may place the order with full payment and you may ship it to my friend who lives in Milton Keynes. I will eventually sort out the shipping.

If that works for you, please let me know the total including calibration certificate. Also, it would be appreciable if you are able to discount it a little bit.

Thanks

Regards

Vismay Buche

Hi Vismay,

I hope you're doing well.

I just wanted to follow up on our conversation from last month. Have you been able to make a decision regarding your purchase of the V1000 Foetal Heart Simulator?

Please let me know if you need any further information or if there's anything else I can assist with.

Looking forward to hearing from you!

Kind regards

Catrin Hollings

Good afternoon Vismay,

I hope this message finds you well and that you had a wonderful start to the New Year.

I wanted to follow up on our previous correspondence regarding the V1000 Foetal Heart Simulator. As mentioned, the price of £659 is valid until 2nd February, and the unit is available with or without the optional calibration certificate. If you're still interested, could you please provide the UK delivery address and confirm the quantity required? I can then issue a proforma invoice and arrange for the order to be processed.

Additionally, if this enquiry is no longer applicable or if your plans have changed, kindly let me know, and I will ensure it is removed from our chase list.

I look forward to hearing from you soon.

Kind regards

Catrin Hollings

Good morning Vismay,

Thank you for your response. I can confirm that the price for the V1000 Foetal Heart Simulator of £659 is valid, but please note that it is only available until 2nd February due to an upcoming price increase.

Please be aware that the unit does not come with a manufacturer calibration certificate by default. This can be added for an additional charge:

- Part Number: 1480001
- V1000 Foetal Heart Simulator Calibration Certificate
- Price: £50.00 (valid until 2nd February 2025)

Additionally, there is a delivery charge of £12.00 for UK delivery, plus VAT at 20% of the total order value.

If you would like me to provide an official proforma invoice, please let me know your UK delivery address, and I will arrange this for you.

Thanks

Kind regards

Hi Catrin

Thanks for your email.

Wish you and your team a very happy new year 2025.

I will have one of our associates buy it off within the UK, who will then hand carry back to India. So, you will ship it within the UK itself.

Just a couple of questions before we close the deal:

1. What is the best price you can offer.
2. Does the device come with some sort of manufacturer's calibration report?

Thanks

Regards

Vismay Buche

Subject: Viamed: V1000 Foetal Heart Simulator

Good morning,

Thank you for your interest in the V1000 Foetal Heart Simulator listed on our website.

Due to the Christmas break, there has been a temporary halt in production. We anticipate receiving new stock of the V1000 by mid-January.

If you would like to be one of the first to receive the product in the New Year, I can provide you with a proforma invoice. To proceed, please provide your full delivery and invoice addresses, along with the number of units you require. Please be aware, orders through our website are only available for deliveries to the UK.

I look forward to hearing from you.

Kind regards
