

Hi Helen - I have a customer from Helsinki University Hospital who are after some Microstim DB3 leads, but they can't pay anything before shipping - I've spoken to Ryan and he said to ask you 😊

how much is it 😊

just a rough idea of the value of the order 😊

I am not sure how many they require yet, but they are 20.70 Euro each

I don't think they will be buying many

I can ask them to confirm the quantity
