Good afternoon,

Thank you for your email. Please find attached the Technical Specifications for the MAX-125M Oxygen Sensor which gives some further information on storage and expected life of the sensor. The expected life is > 500,000% oxygen hours under normal operating conditions. This equates to approximately 2.5 years in air and 6 months in O2.

We offer a warranty of 12 months from the date of invoice and would recommend putting the sensors into use within this time if possible.

I hope this helps. If you have any further questions please do not hesitate to contact me.

Kind regards

Sophie Lines

Dear Ms Sophie,

Good day.

I have 2 questions below:

1. Does MAX-125M Oxygen Sensor (p/n: 0110468) has an expiration date?
2. Does the MAX-125M has an expiration date after being opened?

Please advise. Thank you.

Subject: Re: Request for Pricing - Max-125M

Good afternoon,

Thank you for your inquiry. I can confirm the price for the MAX-125M Oxygen Sensor (part number 0110468) is \$88.90 each EXW.

If you would like me to provide you with a Proforma Invoice including delivery costs to you in Malaysia, please let me know how many units you will require?

Kind regards

Sophie Lines
