Subject: Vandagraph Trade Account

Hi James

Thank you for your call earlier today, and I apologise for the slight delay in getting back to you.

Please find attached the product information and pricing as discussed. Most of our products are available from stock; however, we are currently experiencing some delays in the production of the VN202 analyser. The manual off version is available, but the auto off version is currently unavailable.

On a positive note, the TEK-OX, which is our most popular model, is available without any delays.

Please feel free to reach out if you have any questions.

Kind regards

Ryan
