At all times IMRES has the right to carry out an analysis by an independent laboratory. We have the right to return all goods if we have found the quality not in accordance with the latest Pharmacopoeia. All charges which are related to this quality problem are for the account of the supplier/manufacturer.

The label type (Distributed by Imres or Manufacturer Label) that should be used for each product will be mentioned in the designated order lines.

SHELF LIFE OF PRODUCTS:

- All products must be freshly manufactured
- Total shelf life must conform the Imres Product Summary Sheet (PSS)
- If goods are from stock, a minimum shelf life of 80% at arrival of destination is required.
- All other shelf life can only be accepted upon our written acceptance.

SAMPLES FOR ANALYSIS:

Please contact import.eu@imres.nl as soon as you know the following information:

- Amount of batches
- We will then advise which batch has been selected and should be sent to laboratory for analysis.
- Samples should be taken randomly from production.

- IMRES PO number
- Consignee address
- Contents and batch number
- Clear marking/instructions with regard to temperature restrictions
- Clear marking if data loggers are included in the box and/or pallet

TERTIARY PACKAGING REQUIREMENTS:
The packing must be of a sturdy export quality of a commercial standard that will provide adequate protection of the goods for carriage by AIR, SEA, and/or ROAD to final destinations worldwide, including remote locations under adverse climatic and storage conditions and high humidity.

It is the responsibility of the vendor to provide complete packing as required for transportation. Hazardous (dangerous) and temperature restricted goods must be packed, handled and documented according to current legislation and the instructions in the PO.

Cartons to be properly lashed/secured on heat-treated pallets and if necessary shrink foiled and strapped with 2 plastic strips on each side with hardboard on top to avoid cartons being damaged by the strips.

TEMPERATURE LOGGERS (IF APPLICABLE):
In case shipment contains products with a temperature limit, data loggers should be added as per below;

Full Container Loads (FCL) and Full Truck Loads (FTL):

- For FCL and FTL shipments at least two data loggers should be used during transport:
1. The data loggers should be placed in a carton which is clearly marked and easy accessible for warehouse employees when unloading/unpacking the shipment.
 2. One data logger must be placed at the back of the container / trailer and the second data logger must be placed near the door of the container / trailer.

Less than Container Load (LCL), Less than Truck Load (LTL) and palletized AIR transport:

When shipments are palletized for consolidated road (LTL) and ocean transport (LCL) as well as for transport by AIR, at least one data logger per pallet should be used during transport:
1. The data loggers should be placed in a carton which is clearly marked and easy accessible for warehouse employees when unloading/unpacking the shipment.

Non-palletized shipments (except FCL and FTL):

When shipments cannot be palletized for road, ocean or air transport, at least one data logger should be used for consignments consisting of up to 5 cartons. For 5 to 30 cartons, two data loggers should be used and for every 40 additional cartons, one additional data logger should be used.

Preferably Tempmate® S1 module must be used. In case another type/brand of temperature logger is considered, please take into account the following specifications:

- A certificate of calibration/validation must be available
- Temperature monitoring range between: -30°C to +60°C
- Temperature accuracy of ±0,5°C
- Memory capacity of at least 16.000 readings (16K)
- A logging interval of 1 minute to 30 minutes
- A delay start of 5 seconds to 10 days
- Ability to set high and low alarm limits
- Capability of producing graphs, numerical data and summary reports
- A direct USB 2.0, A-Type plug
- PC requirements: at least be usable on Windows 7 or higher and Adobe Reader 9.0 or higher
- Battery life of at least 12 months
