Good morning Helen, Huddersfield have sent in an order dated 3rd Feb that we had not received previously. At that time, there was an in date quote on the system with the price of £98.07 each for 7 flow meters. The quote has now expired and the (lost) PO they sent in is the same as that quote. But the price is now £100.70 each. Am I ok to use old pricing do you think? Thank you
