Subject: Re: 180124VANDAGRAPH

Hi Farris

Thank you very much for your order, please find your confirmation attached.

In regards to the 9212-5H, it is either our R-33VAN or R-33VAN(RP) that would be a suitable replacement sensor, but I can not be sure of which.

The R-33VAN and R-33VAN(RP) are the same sensor, but the connector is wired the opposite way. They can be switched very easily.

If you or your client installs the R-33VAN and a negative symbol appears on the display, then you can switch the wires in the connector using a very small screwdriver or stanley knife. Either way, the numbers displayed should be correct.

Best regards

Ryan
